---

## EXPERIENCE

---

- **Google AdSense (2020-2023)**

Working with Google AdSense for three years has provided me with a unique opportunity to bridge my expertise in digital advertising with the dynamic realm of technology. Through meticulous campaign optimization and strategic planning, I not only enhanced revenue growth but also deepened my understanding of the intricate algorithms and data analytics that underpin modern digital platforms. This experience has not only strengthened my proficiency in managing AdSense but has also cultivated a solid foundation in technology, data-driven decision-making, and staying attuned to evolving industry trends.

- **BrianzaDent (Present)**

During my time at BrianzaDent, I have gained valuable experience as an IT professional, honing my technical skills and fostering a deep understanding of web development. My responsibilities included maintaining and optimizing the company's IT infrastructure, troubleshooting technical issues, and collaborating with cross-functional teams to ensure seamless operations. This experience not only reinforced my communication and teamwork skills but also emphasized the importance of a multidisciplinary approach in achieving success in technology-driven projects.

- **Personal Project**

In addition to my professional experience at BrianzaDent, I am currently engaged in a personal project that underscores my passion for web development and design. I am diligently working on creating a comprehensive portfolio presentation that showcases my proficiency in frontend development, UI/UX design, and programming languages such as HTML, CSS, and JavaScript. This project not only serves as a testament to my commitment to continuous learning and self-improvement but also reflects my ability to independently manage and execute a creative endeavor. I am excited to share this portfolio presentation, which can be accessed on my GitHub profile, as it highlights my evolving skill set and demonstrates my dedication to advancing my career in the field of web development.
